

Response time data for Fire Rescue Victoria (FRV) appliances responding to Structure Fires in the FRV Fire District where the FRV appliances are primary appliances (1st appliance onscene).

Emergency structure fires meeting targets by Station Maintenance Area

Emergency Structure Fires meeting benchmarks by Station Maintenance Area

Reporting period: 1 January 2021 to 31 March 2021

Primarily residential structure fires including commercial centres, industrial and/or community services e.g. schools, correctional facilities, hospitals. FRV has service delivery standards, which specify a response time target for a station to attend an emergency incident. The service delivery standard (response time) for Structure Fire is 7.7 minutes.
